Kevin Duong

678-469-9001   kevinduongdev@gmail.com   Portfolio: kevin-d47.github.io   LinkedIn   Github

SKILLS
JavaScript, Python, ReactJS, Redux, Flask, SQLAlchemy, Express, SQLite, CSS3, HTML5, Git, Docker, Node.js
Adobe Photoshop, Adobe Illustrator, Adobe After Effects, ToonBoom Harmony, StoryBoard Pro, Autodesk Maya, Blender

EDUCATION
AppAcademy - 24-week Full-Stack Software Engineering Bootcamp Graduate - Mar 2022 - Nov 2022
Savannah College of Art and Design (SCAD) - Bachelors of Fine Arts in Animation *, Nov 2017 - Jun 2021*

PROJECTS
Kelp | *(JavaScript, Python, ReactJS, Redux, Flask, SQLAlchemy, PSQL)*   **live** | **github**
A clone of Yelp, a popular application that publishes crowd-sourced reviews about businesses.
- Utilized Flask and SQLAlchemy in the backend to manage multiple tables and columns such as businesses, reviews, and images to work in unison with ReactJs/Redux to manage frontend client side requests.
- Built a filtering functionality allowing users to filter business data by price and type.
- Used Javascript principles to conditionally render access authority and page results differentiating business owners and user inputs.

Klickr | *(JavaScript, Python, ReactJS, Redux, Flask, SQLAlchemy, PSQL)*   **live** | **github**
A clone of Flickr, a social image hosting application where users can share and interact with an online community.
- Used Python language to formulate a backend server with Flask and SQLAlchemy to create database relationships by connecting tables to one another using the Primary-Foreign Key constraints.
- Led the overall CSS3 designs ensuring the implementation of a visually appealing and impactful style throughout the application.
- Collaborated with a team of developers to produce a fully functional application while efficiently managing Git pull/push requests and implementing SCRUM principles.

Staybnb | *(JavaScript, ReactJS, Redux, Express, SQLite, NodeJS, PSQL)*   **live** | **github**
A clone of Airbnb, an application where users can operate and book short-term homestays and experiences.
- Developed the backend utilizing Express and SQLite to implement complex database schemas to store and manage data within the application.
- Implemented custom ReactJS components and implemented Redux actions to create an intuitive API to handle data and user interactions.
- Constructed various error validation functions to handle invalid dates when creating bookings on the applications.

EXPERIENCE
Freelance Digital Artist
KDKreations   Aug 2021 - Mar 2022
- Created digital artwork encompassing animations, illustrations, and graphic designs for commissions showcasing skills in principles of design/animation, color theory, and concept development.
- Demonstrated excellent time management and organizational skills by managing production schedules to meet project deadlines.
- Led a small team of animators as a project lead with the pre-production of a animated childrens book called "Zae Man the Superhero".
- Created the logo for NGM Landscaping, a local landscaping company.
- Created a variety of personal artwork for clients spanning from illustrations to tattoo designs.

Assistant Manager/ Lead Server
EM.BOP (Korean BBQ restaurant)   Jun 2018 - Mar 2022
- Served as the assistant manager in leading a team of servers and managing work schedules, restaurant supplies, and other workplace issues.
- Provided exceptional customer service and developed strong multi-tasking skills by serving the customers, addressing issues, and providing resolutions.
